**PETITION FOR CERTIFICATE OF CORRECTION**

Dear Sir:

In connection with the above Patent, pursuant to MPEP 1481, Applicants request that the above identified Patent be corrected as set forth in the attached.

Applicants filed a Petition to Correct Inventorship, per the attached, while the underlying application was pending, i.e. in June, 2003. All inventors agreed to correction of the inventorship. However, the Petition to Correct Inventorship was never acted on by the PTO, and the Patent issued in January 2006, with the original inventorship. Thus, the Patent was printed with the wrong inventorship information. Since the error was a Patent Office error, it is believed that the Certificate of Correction should be issued without charge to the Applicant. In the event there are any fee deficiencies or additional fees are payable, please charge them (or credit any overpayment) to our Deposit Account Number 08-1391.

Respectfully submitted,

**VERIFIED STATEMENT BY ORIGINALLY NAMED INVENTORS JOHN  
MEYER AND LOU KROUSE IN SUPPORT OF PETITION TO CORRECT  
INVENTORSHIP UNDER 37 CFR 1.48(a)**

Dear Sir:

We, JOHN MEYER and LOU KROUSE, hereby declare the following:

1. We are the originally named inventors of the above-identified application entitled "Bar Coded Bill Payment System and Method" (hereinafter "the application").
2. The application was filed informally naming ourselves as inventors based upon a miscommunication with our patent attorney, who believed that we were both the inventors of same. Upon further consideration and after the application was filed, our attorney conducted further interviews with the individuals involved in the subject matter of said application. Our attorney determined that the application erroneously named Lou Krouse as an inventor, and upon such determination, promptly recommended that we petition to the Patent Office to correct the inventorship of the pending application.

3. The naming of Lou Krouse as an inventor of the above-identified application at the time of filing thereof was without any deceptive intent on our part, or anyone else involved in preparation or prosecution of the application.

4. In view of the foregoing, we respectfully request that the Commissioner grant the accompanying Petition to Correct Inventorship of the above-identified application under 37 CFR 1.48, and thereby remove Lou Krouse as a named inventor for the above-identified application.

We declare that all statements made therein are true and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 USC §1001 and that such false statements may jeopardize the validity of this document and of the parent application to which it relates.

## **IMPORTANT NOTICE RE DUTY OF CANDOR AND GOOD FAITH**

The Duty of Disclosure requirements of Section 1.56(a), of Title 37 of the Code of Federal Regulations are as follows:

A duty of candor and good faith toward the Patent and Trademark Office rests on the inventor, on each attorney or agent who prepares or prosecutes the application and on every other individual who is substantively involved in the preparation or prosecution of the application and who is associated with the inventor, with the assignee or with anyone to whom there is an obligation to assign the application. All such individuals have a duty to disclose to the Office information they are aware of which is material to the examination of the application. Such information is material where there is a substantial likelihood that a reasonable examiner would consider it important in deciding whether to allow the application to issue as a patent. The duty is commensurate with the degree of involvement in the preparation or prosecution of the application.

By virtue of this regulation each inventor executing the Declaration for the filing of a Patent Application acknowledges his duty to disclose information of which he is aware and which may be material to the examination of the application.

Inherent in this is the duty to disclose any knowledge or belief that the invention:

- (a) was ever known or used in the United States of America before his invention thereof;
- (b) was patented or described in any printed publication in any country before his invention thereof or more than one year prior to the actual filing date of the U.S. patent application;
- (c) was in public use or on sale in the United States of America more than one year prior to the actual filing date of the U.S. patent application; or
- (d) has been patented or made the subject of inventor's certificate issued before the actual filing date of the U.S. patent application in any country foreign to the United States of America on an application filed by him or his legal representatives or assigns more than twelve months before the actual filing date in the United States.

NOTE: The "Information" concerned includes, but is not limited to, all published applications and patents, including applicant's and assignee's own, U.S. or foreign applications and patents, as well as any other pertinent prior art known, or which becomes known, to the inventor or his representatives. Where English language equivalents of foreign language documents are known, they should be identified and, when possible, copies supplied. Failure to comply with this requirement may result in a patent issued on the application being held invalid even if the known prior art which is not supplied is material to only one claim of that patent.
